## Work History

### SCADA Developer

*Copextel, Matanzas, Cuba*

- Designed, developed, and implemented SCADA (Supervisory control and data acquisition) systems based on analyzed requirements and understanding of industry technical standards.
- Developed and deployed new SCADA tools/interfaces to reduce operational cost, improve facility runtime, and further environmental stewardship and safety.
- Support all SCADA system integrations, views, scripts, and overall architecture.
- Tested programs and databases to identify issues and make necessary modifications.
- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.

## Education

### Bachelor of Science: Computer Science And Programming

*Universidad De Ciencias Informaticas - Havana, Cuba*

## Languages

- Español (Nativo)
- English (Indermediate)
